Schroer Plant Farms

Growers of Vegetable Plants

VALDOSTA, GEORGIA

Our plants may seem a little high in price in comparison with other prices. It is important to have plants grown from high grade selected seeds. Low grade cheap seeds do not produce good plants true to variety. SCHROER'S Plants Are Always Grown From High Grade Selected Seed.

About 1000 acres for growing plants.

65 acres of irrigation, which protects us in dry weather.

Our plants are grown from the very best seeds, and only Number One Plants are being shipped—tied 50 to bunch.

Tomato, Pepper and Eggplant Plants are wrapped in paper with moss around roots. This will bring them to you in the very best growing condition. Shipping Tomato Plants from April 1st to July—Pepper and Eggplant Plants from April 15th to July.
